

in the country. A reproduction from a photograph of the hotel, taken at a quiet moment, is given in this edition, the object being to show merely the exterior of the building rather than an interesting street view. In every respect The Morton stands without a peer in Michigan, its accommodations, furnishings and service being unexcelled in the state.

#### OUR FLOURING MILLS.

The Crescent One of the Finest in the Country.

Grand Rapids has a splendid reputation both at home and abroad as a milling center. The above is a miniature picture of the Crescent Roller Mills at the west end of Pearl street bridge. The proprietors of the firm of the Voigt Milling company are C. G. A. Voigt and W. G. Herpolsheimer. This is one of the largest mills in the city, having a capacity of 400 barrels of flour per day, and is constantly kept busy manufacturing the well-known family flour

brands Crescent and White Rose. Their Royal Patent is a superior grade of patent flour. Thousands of the best families in Grand Rapids and other large cities use it constantly and could not be induced to replace it with any other brand. They are also the manufacturers of the health food, All Wheat flour, which is very highly recommended by the leading doctors.

This firm, although having a large city and state trade, is represented in the eastern and southern states where the Crescent, White Rose and Royal Patent have an enviable reputation. These brands are guaranteed to be second to none manufactured in the state. This mill is equipped with the latest, most improved machinery, having recently added quite a line of machines to improve the quality of their product.

C. G. A. Voigt is a veteran in the milling business and is considered an authority on all subjects pertaining to the milling interests. The success of the Voigt Milling Company is largely due to its enterprise, integrity and fairness in dealing with its trade.

The accompanying illustration presents to your view, the interior looks of our laundry and carpet cleaning works. At present we have in our employ eighty people, and we pay out for weekly wages alone over six hundred dollars, which number and amount will increase as the weather gets warmer. This is considerable for a WASH HOUSE, isn't it? Well you see we do the business—and why? Because we aim to do as we agree, promise nothing we cannot do, and do our work right, the public appreciates our efforts. If you are not already a customer of ours and should wish to try us, we think we can suit you. We have a great many calendars on hand, printed in four or five different colors; the above cut is a FAC-SIMILE. Come and get one.  
Respectfully yours, OTTE BROTHERS.
